

# UML Diagrams

## **Submission Guidelines:**

- Diagrams can be:
  - Created using Draw.io / Lucidchart
- File format: **PDF or PPT**
- Naming: IntID\_UMLDiagrams\_Assignment

You are working on a **Task Management System (like Jira)** used in an organization.

The system allows users to:

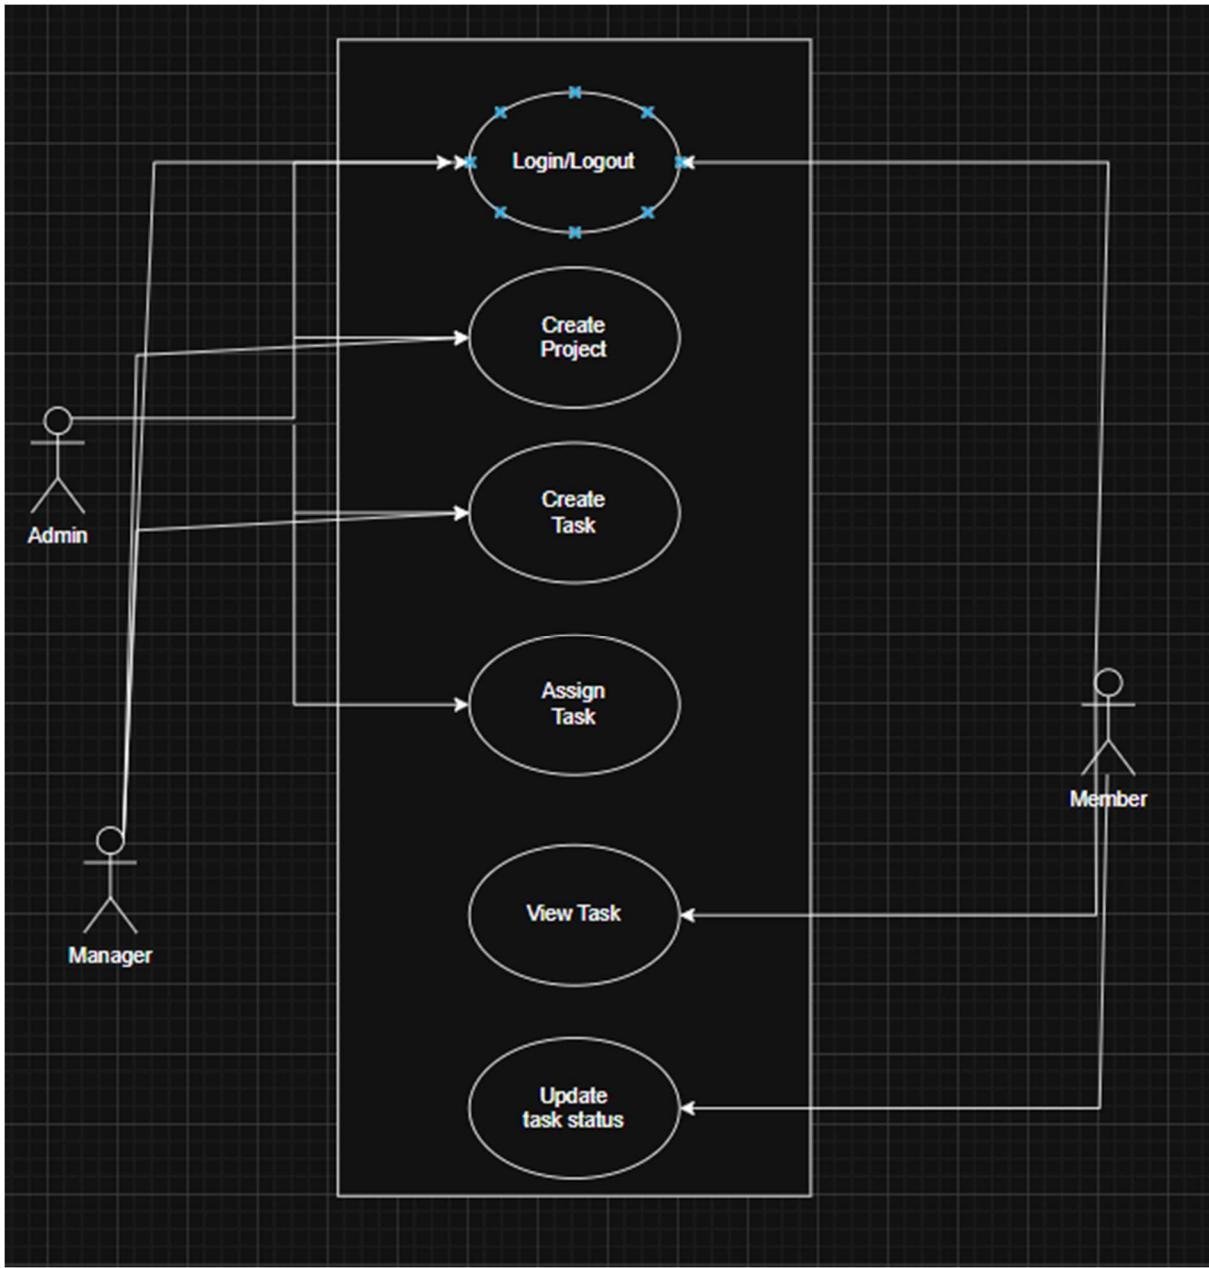

- Log in
- Create projects
- Create tasks
- Assign tasks
- Track task status
- View tasks in List, Board, and Timeline views

There are **three types of users:**

- Admin
- Manager
- Team Member

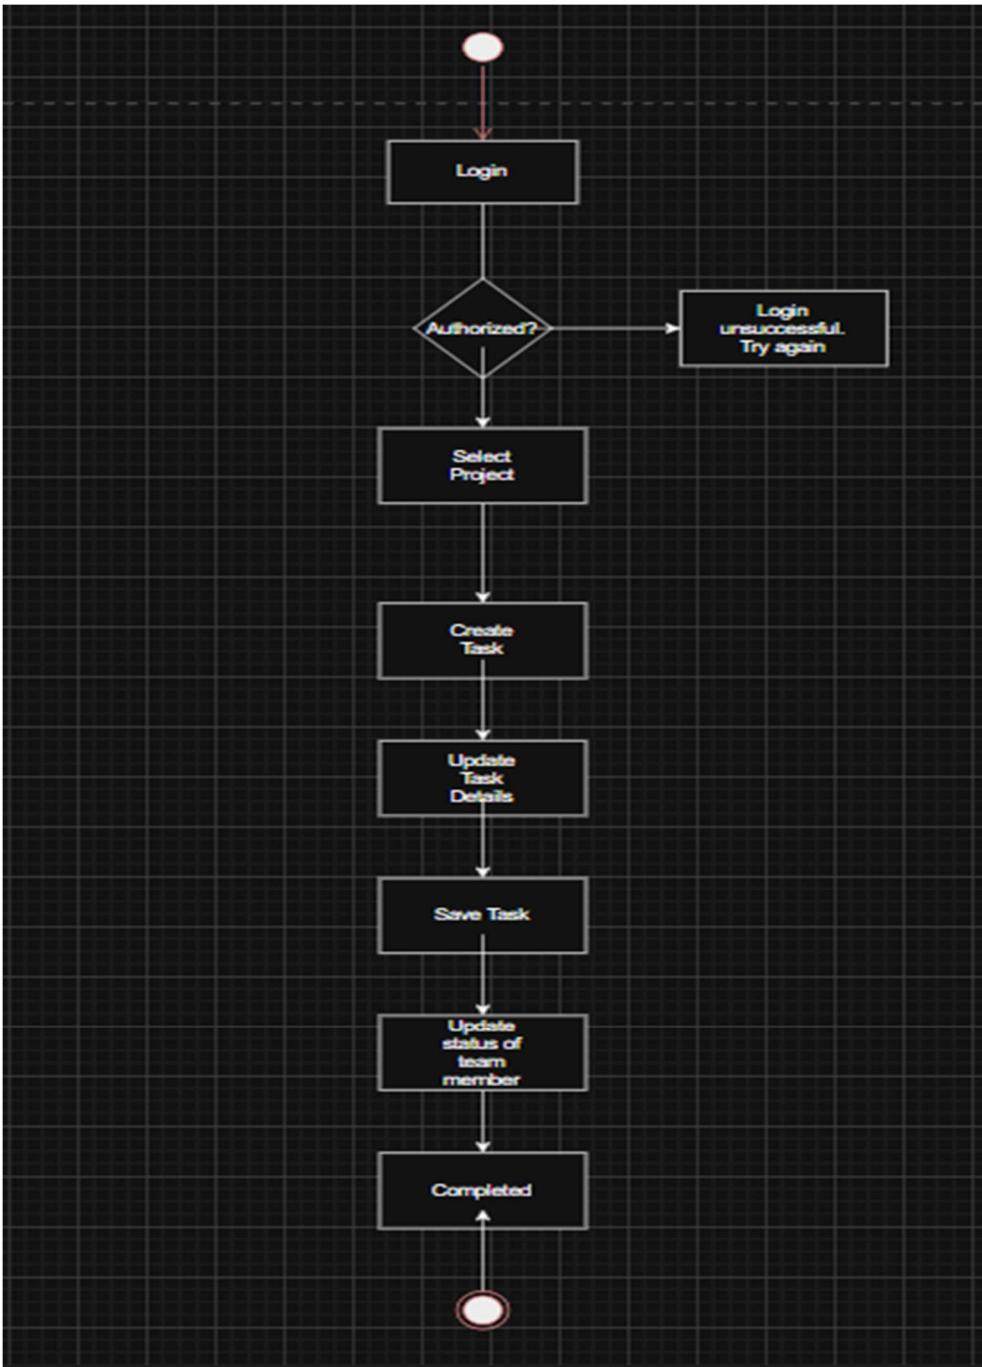

## **Task 1: Use Case Diagram**

**Goal:** Identify *who can do what* in the system.

## Task 2: Activity Diagram

**Goal:** Show the step-by-step flow of a task - Creating and completing a task

### Task 3: Class Diagram

**Goal:** Show *what data exists* in the system.
